New York Stock Market

New York, November 25 .- The neglect of the stock market left it nearly idle to-day and the price-movement was the merest driff. There was prac-

idle to-day and the price-movement was the merest drift, There was practically no outside participation in the dealings and the floor traders operated in a languid way, with small hope of producing any effects that would yield a profit.

While the holiday period was called responsible for the neglect in part, it is recognized that deeper lying causes also are at work. Apprehesion is growing that the period of trade revival must be set forward to some time next year. The distinct easing in the money market fails to bring in the money market fails to only the most necessary borrowing. Announcement was made to-day of the Sale of the \$7.00.000 remained of \$1.20 per cent. equipment notes of the New York Central lines, which were authorized to the amount of \$30.00.000, the public service commission attaching the condition that they must not be sold for less than 97 per cent.

The continued abstention of rail roads from placing orders freely for material detracts from the effect of the professions of confidence that freight rate advances are practically assured. Incidents in connection with the rate hearings, in fact, serve to keep the subject open to continual uncertainty.

The week's currency movement has been in favor of the New York banks both from the interior and on Suitreasury operations, and a gain of nearly \$5.900.000 in cash, allowing for \$350.000 to the preliminary estimates.

mates.

The action of the Stock Exchange authorities in admitting Lehigh Välley to the list gave some slight impetus to the speculation in Reading. There were rumors also that a decision was imminent in the anthracite trust cases in the United States Circuit Court at Philadelphia. Union Pacific ended 1-4 higher than on Wednesday, Reading unchanged, and United States Steel 1-8 lower. The narrowness of the whole market was typified in these betocks.

Blods were irregular. Total sales of bonds, par value, \$1,682,000. United States government bonds were unchanged on call.

Total sales to-day were 179,300 shares of stocks.

New York, November 25.—Money on call easy, 2 1-4@2 1-2 per cent; ruling rate, 2 1-2 per cent; closing bid, 2 1-4; offered at 2 1-2. COTTON MARKETS.

New York, November 25.—New high records were made in the cotton market today, with May cotton selling at 15.25 for the first time this season, or 27 points above the closing figures of Wednesday on continued covering and buil support, inspired by reports of a more active trade domand and expectations of a buillish government report early act month. The close was coally at a net advance of 12 strategy of the consumption and pulled private crop estimates. Realizing was very heavy around 15.25 for May, and prices cased off 4 or 5 points from the best during the middle of the day, but as selling for long account became less active the market firmed up again on continued support from newly converted buils and further covering of shorts. These figures exclude Panama Canal and public debt transactions.

and public debt transactions.

Bradstreet's.

New York, November 25.—Bradstreet's to-morrow will say:

"Demand for holiday goods is becoming more prominent and developments in this respect, are responsible for whatever expansion has occurred in trade this week. Novelties, jewelry, etc., and such articles as are appropriate to the season are in good request, and the consensus of reports in dicates that trade is in excess of last year's. But trade in general has become more irregular. Retail trade reports seem to have lost some of the relative activity displayed last week. For instance, the South as a whole reports a certain degree of betterment, due probably to the good movement of cotton at high prices, while warm weather hampers distribution of seasonable merchandise in the Southwest, but in the Northwest trade is outte active. In the Central West trade shows a slight increase, but in the East the turnover is disappointing. Collections the country over range from slow to good.

"Business failures in the United States for the week ending November 24 were 212, against 218 last week and 217 in the like week of 1909."
